Professional Summary

Full-stack developer with 3.3 years of experience delivering modern SaaS platforms and end-to-end marketing websites. Proficient in building scalable front-ends with **React**, **Next.js** and **Angular**, and robust **APIs** using **Django REST Framework** and **Node.js**. Successfully led the development of multiple company websites and internal products. Experience in building static websites using **Jekyll** and implementing advanced **SEO optimization** techniques. Strong foundational knowledge of **Linux**, application-level security, containerized deployment using **Docker** and **Kubernetes**, and durable execution with **Temporal.io**. Adept at working across the stack with a strong sense of ownership and performance optimization.

Technical Skills

- **Languages**: JavaScript, TypeScript, Python
- **Frontend**: React, Next.js, Angular
- **Backend**: Node.js (Express), Django, Django REST Framework
- **Databases**: PostgreSQL, MySQL, MongoDB
- **Cloud Platforms**: AWS (EC2, S3, EKS), Azure (AKS), Google Cloud (GKE)
- **Tools & Platforms**: Docker, Kubernetes, Temporal, Apache Kafka
- **Other**: Core Linux, REST API Design, Web Security Best Practices
- **CI/CD & Deployment**: Git, GitHub Actions, Nginx

Experience

Platformatory, Full-Stack Developer

Bengaluru, IN
March 2022 – present

- Built and maintained secure and scalable full-stack web applications using **React**, **Next.js**, **Angular**.
- Developed and deployed REST APIs with **Django REST Framework** and **Node.js**.
- Engineered real-time data pipelines using **Apache Kafka** and durable workflows using **Temporal**.
- Deployed containerized microservices using **Docker** and orchestrated environments using **Kubernetes** on **EKS**, **AKS**, and **GKE**..
- Configured static marketing sites using **Jekyll** with advanced **SEO** and performance optimizations.
- Focused heavily on **application security** and **Linux-based deployment**.

Projects

SaaS Platforms

Led full-stack development across multiple SaaS products:

- **Apinomy** – API management and observability platform
- **Eventception** – Real-time event architecture visualizer
- **Streamti.me** – Lightweight data streaming toolkit
- **RTDX** – Operational analytics and data exchange platform
- **Ruller** – Digital campaign management product for enterprise customers

Company Marketing Websites

Designed and developed all company marketing sites:

- platformatory.io ↗
- dataplusai.academy ↗
- apinomy.com ↗
- comonad.ai ↗

Rajadesingu.in

Personal Project for the Theater Arts Community Rajadesingu.in ↗

- Designed and developed the entire website to help theater artists showcase their work and promote upcoming shows
- Content available in **Tamil** and **English**, making it accessible to a broader regional audience.
- Focused on **marketing and visibility**, with sections for artist portfolios, event schedules, media galleries, and updates.

Education

BE	**Tiruvalluvar College of Engineering and Technology**, Electronics and Communication Engineering **GPA: 7.6/10.0**	Aug 2017 – May 2021 Vandavasi, TamilNadu, IN
